

Your Trusted ACC Advisors

ACC Annual Management Plan

Let us take the ACC hassle away so that you can focus on your core business!

Your Trusted ACC Advisors

"Hiring The ACC Guys is the single best investment we have ever made because of their [initial] no savings no fee we had nothing to lose and a lot to gain"

Our experience with the ACC Guys has been a positive one with great benefits for us. I would recommend having a Levy Review conducted and before making any payments to ACC speak to the ACC Guys first.

The ACC Guys can successfully arrange ACC refunds for businesses due to shareholder overpayments. All it takes is to quickly fill out an authority form. After that you don't have to do anything.

Can you answer these questions?

- Do you understand your ACC invoice?
- Are you on the right levy code?
- Have you overpaid ACC levies as shareholders?
- Will ACC cover you as a shareholder or self-employed operator in the event of an accident?
- Do you know what impact ACC's Transformation Change programme will have on your business?

ACC's cover and levy processes have become time consuming and complex. In our experience most businesses simply pay what ACC demand whether it's right or wrong. We will save businesses and self-employed people 25% on an annual basis, regardless of the industry in which they operate.

Our ACC Annual Management Plan [valued at \$400 + GST per annum] helps you focus on your core business, while, on your behalf, we concentrate on ours. As an annual client you will receive a priority service and will have a safe pair of hands navigating you through the ACC maze.

Priority Services Include

- **An Initial ACC Levy Review.**
We will conduct an initial review. Every business is overpaying on its ACC levies until we prove otherwise.
- **An Annual ACC Levy Review**
ACC policy coupled with company structural changes mean it is necessary to review your ACC levies each year.
- **Support and Advice**
We will inform you if ACC makes changes that affect your business. In addition, we will provide personal support and you can contact us for any injury or levy related advice.
- **Payment Plan Optimisation**
We ensure ACC payment plans maximise cashflow advantages and eliminate unnecessary fees.

Cost

| Number of Companies | Cost per company |
|---------------------|------------------------|
| 1 | \$400 per annum (+gst) |
| 2-4 | \$350 per annum (+gst) |
| 5+ | \$300 per annum (+gst) |

Step 1. ACC Authority Form

You will need to fill out an [ACC Authority form](#) (if you haven't already completed one) so we can access your ACC information. We will organise this with you.

Step 2. The Review

We will prepare and send a report detailing what we find, potential savings and options available to you.

Step 3. The Discussion

We will discuss the opportunities with you and implement the agreed changes.
